

IT Forum 2009
Friday, February 27, 2009
Miami University Middletown
Room 142 Campus Community Center
4200 East University Blvd.
Middletown, Ohio

Please join our guest speakers from the Atrium Medical Center, Duke Energy, FEMA, Kroger, and Miami University at the fifth annual Information Technology (IT) Forum presented by the Department of Computer & Information Technology at Miami University. IT Forum 2009 is an opportunity for students, professionals and educators to share ideas, experiences, and insights about how IT affects their careers. This year's theme, ***“Disaster Recovery in IT”***, will focus on how other disciplines have handled disaster recovery when it occurred and how to prepare for disaster in IT field. Our guest speakers will share personal experiences where disaster in IT has affected their companies.

The forum will be held Friday, February 27, 2009 on the Middletown Campus of Miami University. In past years, students reported that they especially enjoyed interacting with speakers in small group sessions. This year the guest speakers will again host roundtable sessions to discuss and answer any other questions.

IT Forum 2009 Agenda:

9:30am - 9:45am	Introductions
9:45am - 11:15am	Guest Speakers
11:15am - 12:00pm	Lunch
