

## Template for Teaching American History “box”

What makes a “box” different from a lesson plan is that it includes hands-on materials or directions to websites that can be used by students. Materials can include maps, primary documents, timelines, etc. What appears below are some specifics required for TAH assignment for those seeking audits. The content of this template is to be shared Friday, June 23, in the afternoon. If you do not have an item please indicate where it can be found.
